

## List of Poster Presentations

Poster #	Name	Titel
1	Julian Hofer	Central Asian Dust Experiment (CADEX): Multiwavelength polarization Raman lidar observations in Tajikistan
2	Bernd Heinold	Saharan Dust Export towards the Caribbean:Transport, Mixing and Deposition Processes over the Atlantic Ocean
3	Christoph Bergemann	Global simulation of mineral dust with POLYPHEMUS/DLR
4	Paul Chi Yan Tsui	Regional Dust-Iron Modeling with Application to Australia
5	Ute Merkel	
6	Ulrike Vogelsberg	Cape Verde Case Studies on Mineral Dust Modelling
7	Martin Simmel	Detailed cloud microphysical modeling: Mineral dust inducing ice nucleation
8	Andre Welti	Immersion freezing experiments using PM10 filter samples from Cape Verde
9	Julia Schmale	Mineral Dust Deposition and Resulting Radiative Forcing on Glaciers in Central Asia
10	Ramiro	Sensitivity studies of MSG dust products with COSMO-MUSCAT and RTTOV: preliminary results
11	Moncef Bouaziz	Remote sensing retrieval of aerosol over North Africa and Europe using MODIS data
12	Lars Klüser	Simulation of optical properties of non-spherical desert dust particles in the terrestrial infrared with an asymptotic approximation approach
13	Angela Moissl	Electron microscopic characterisation of nanocrystalline silicates
14	Stefanie Feuerstein	Development of a conceptual model of dust emission from alluvial sediments
15	Werner Ehrmann	Aeolian clay minerals in central Aegean Sea sediments document North African dry and humid periods of the Late Quaternary
16	Christopher Roettig	Bodensequenzen und Staubeinträge der Palaeodünen im Norden Fuerteventuras
17	Yesmine Trigui	The Loess deposits of the Matmata plateau: Origin, Differentiation and Paleoclimatic Evidence
